

Jawad Masud

Senior Vice-President, Technical Centre

As Senior Vice-President, Technical Centre, Mr. Masud has responsibility for all central technical functions including engineering, construction management systems and processes, safety, quality and compliance, security, supply chain, emergency management and resource capability management.

Since joining TC Energy in 2008, Mr. Masud has held various senior roles in TC Energy's power and pipeline lines of business.

Prior to his current appointment, Mr. Masud was Senior Vice-President, Operations, Engineering and Project Execution and was accountable for the safe, reliable and efficient operations of our Canadian natural gas pipelines assets. Mr. Masud's responsibilities included ensuring best-in-class execution of all modernization, maintenance, expansion and greenfield projects in his portfolio.

As Vice-President, Commercial Operations, Canadian Gas Pipelines, Mr. Masud was accountable for the overall design, commercial operations and optimization of the Canadian natural gas pipeline assets. As Director, Canadian Gas Pipelines, Commercial West Markets, Industry Collaboration and Rates, Mr. Masud had accountability for all delivery-related commercial activities, products and services for intra-basin, export and extraction markets related to the transportation of natural gas on several major gas pipeline systems, business strategy development and rates/services management. As Director of U.S. Power, Mr. Masud had overall management accountability for the engineering, operations and maintenance of TC Energy's power generation fleet in the U.S.

In addition to his operations, engineering and commercial experience, Mr. Masud has held senior roles in areas of management systems, compliance and asset integrity.

Mr. Masud obtained his Bachelor of Science degree in Mechanical Engineering from the New York Institute of Technology. Mr. Masud also holds a Master's degree in Finance and Investments and a Master's degree in International Business from Baruch College, Zicklin School of Business, as well as Executive Leadership Training from the Richard Ivey School of Business, Western University.

TC Energy

We're a team of 7,000+ energy problem solvers working to move, generate and store the energy North America relies on. Today, we're taking action to make that energy more sustainable and more secure. We're innovating and modernizing to reduce emissions from our business. And, we're delivering new energy solutions – from natural gas and renewables to carbon capture and hydrogen – to help other businesses and industries decarbonize too.

TC Energy's common shares trade on the Toronto (TSX) and New York (NYSE) stock exchanges under the symbol TRP. To learn more, visit us at [TCEnergy.com](https://www.tcenenergy.com).
