Section 1: IDENTIFICATION

Product Name: Natural Gas (Sweet)
Synonyms: Marsh Gas; Methane (CH4); Fuel Gas.
Product Use: Fuel Gas.
Restrictions on Use: Not available.
Manufacturer/Supplier: TransCanada Pipelines Limited
450 – First Street S.W.
P.O. Box 1000, Station M
Calgary, Alberta, CANADA, T2P 4K6
Emergency Phone: Canada: 1-888-982-7222
US: 1-800-447-8066
Portland Natural Gas: 1-800-830-9865
Columbia Gas Transmission: 1-800-835-7191
Date of Preparation of SDS: December 12, 2017

Section 2: HAZARD(S) IDENTIFICATION

GHS INFORMATION
Classification: Flammable Gases, Category 1
Gases Under Pressure - Compressed Gas
Simple Asphyxiant, Category 1

LABEL ELEMENTS
Hazard Pictogram(s):

Signal Word: Danger
Hazard Statements: Extremely flammable gas.
Contains gas under pressure; may explode if heated.
May displace oxygen and cause rapid suffocation.

Precautionary Statements
Prevention: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Response: Leaking gas fire: Do not extinguish, unless leak can be stopped safely. In case of leakage, eliminate all ignition sources.
Storage: Store in a well-ventilated place. Protect from sunlight.
Disposal: Not applicable.
Hazards Not Otherwise Classified: Not applicable.
Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

Section 4: FIRST-AID MEASURES

Inhalation: If inhaled: Call a poison center or doctor if you feel unwell.

**Acute and delayed symptoms and effects:** May displace oxygen and cause rapid suffocation. Central nervous system depression can occur if product is present in concentrations that will reduce the oxygen content of air below 18% (vol). Symptoms may include headache, lightheadedness, drowsiness, disorientation, vomiting and seizures. Unconsciousness and death may occur with severe oxygen deprivation. May cause respiratory irritation. Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

Eye Contact: If in eyes: Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor.

**Acute and delayed symptoms and effects:** Contact with rapidly expanding or liquefied gas may cause irritation and/or frostbite. The pain after contact with liquid can quickly subside. Permanent eye damage or blindness could result.

Skin Contact: Contact with rapidly expanding or liquefied gas may cause irritation and/or frostbite. If on skin: Wash with plenty of water. Get immediate medical advice/attention. Thaw frosted parts with lukewarm water. Do not rub affected area. Remove non-adhering contaminated clothing. Do not remove adherent material or clothing.

**Acute and delayed symptoms and effects:** Contact with rapidly expanding or liquefied gas may cause irritation and/or frostbite. Symptoms of frostbite include change in skin color to white or grayish-yellow. The pain after...
contact with liquid can quickly subside.

**Ingestion:**  
Not a normal route of exposure.

**General Advice:**  
In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

**Note to Physicians:**  
Symptoms may not appear immediately.

## Section 5: FIRE-FIGHTING MEASURES

### FLAMMABILITY AND EXPLOSION INFORMATION

Extremely flammable gas. Contains gas under pressure; may explode if heated. Will be easily ignited by heat, sparks or flames. Will form explosive mixtures with air. Vapors from liquefied gas are initially heavier than air and spread along ground. Methane is lighter than air and will rise. Vapors may travel to source of ignition and flash back. Cylinders exposed to fire may vent and release flammable gas through pressure relief devices. Containers may explode when heated. Ruptured cylinders may rocket. **DO NOT EXTINGUISH A LEAKING GAS FIRE UNLESS LEAK CAN BE STOPPED.**

If tank, rail car or tank truck is involved in a fire, **ISOLATE** for 1600 meters (1 mile) in all directions; also, consider initial evacuation for 1600 meters (1 mile) in all directions.

Fire involving Tanks: Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out. Do not direct water at source of leak or safety devices; icing may occur. Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank. **ALWAYS stay away from tanks engulfed in fire.** For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.

**Sensitivity to Mechanical Impact:**  
This material is not sensitive to mechanical impact.

**Sensitivity to Static Discharge:**  
This material is sensitive to static discharge.

### MEANS OF EXTINCTION

<table>
<thead>
<tr>
<th>Suitable Extinguishing Media</th>
<th>Unsuitable Extinguishing Media</th>
</tr>
</thead>
<tbody>
<tr>
<td>Small Fire: Dry chemical or CO2.</td>
<td>Not available.</td>
</tr>
<tr>
<td>Large Fire: Water spray or fog. Move containers from fire area if you can do it without risk.</td>
<td>Oxides of carbon.</td>
</tr>
</tbody>
</table>

**Products of Combustion:**  
Leaking gas fire: Do not extinguish, unless leak can be stopped safely. In case of leakage, eliminate all ignition sources. Vapors may cause dizziness or asphyxiation without warning. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite. Fire may produce irritating and/or toxic gases. Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters’ protective clothing will only provide limited protection. Always wear thermal protective clothing when handling refrigerated/cryogenic liquids.
Section 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedures: As an immediate precautionary measure, isolate spill or leak area for at least 100 meters (330 feet) in all directions. Keep unauthorized personnel away. Stay upwind. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Keep out of low areas. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All equipment used when handling the product must be grounded.

Personal Precautions: Do not touch or walk through spilled material. Use personal protection recommended in Section 8.

Environmental Precautions: Not normally required.

Methods for Containment: Stop leak if you can do it without risk. If possible, turn leaking containers so that gas escapes rather than liquid. Use water spray to reduce vapors or divert vapor cloud drift. Avoid allowing water runoff to contact spilled material. Do not direct water at spill or source of leak.

Methods for Clean-Up: Prevent spreading of vapors through sewers, ventilation systems and confined areas. Isolate area until gas has dispersed.

Other Information: See Section 13 for disposal considerations.

Section 7: HANDLING AND STORAGE

Handling: Avoid breathing gas. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not pierce or burn, even after use. See Section 8 for information on Personal Protective Equipment.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines
Component
Natural gas [CAS No. 8006-14-2]
   ACGIH: Simple asphyxiant; Explosion hazard
   OSHA: No PEL established.
Methane [CAS No. 74-82-8]
   ACGIH: Simple asphyxiant; Explosion hazard
   OSHA: No PEL established.
Ethane [CAS No. 74-84-0]
   ACGIH: Simple asphyxiant; Explosion hazard
   OSHA: No PEL established.
Propane [CAS No. 74-98-6]
   ACGIH: Simple asphyxiant; Explosion hazard
   OSHA: 1000 ppm (TWA), 1800 mg/m³ (TWA);

Butane [CAS No. 106-97-8]
   ACGIH: 1000 ppm (STEL); Explosion hazard (2012)
   OSHA: 800 ppm (TWA) [Vacated];

Isobutane [CAS No. 75-28-5]
   ACGIH: 1000 ppm (STEL); Explosion hazard (2012)
   OSHA: No PEL established.

Pentane [CAS No. 109-66-0]
   ACGIH: 1000 ppm (TWA); (2013)
   OSHA: 1000 ppm (TWA), 2950 mg/m³ (TWA);
   600 ppm (TWA), 750 ppm (STEL) [Vacated];

Isopentane [CAS No. 78-78-4]
   ACGIH: 1000 ppm (TWA); (2013)
   OSHA: No PEL established.

Nitrogen [CAS No. 7727-37-9]
   ACGIH: Simple asphyxiant
   OSHA: No PEL established.

Carbon dioxide [CAS No. 124-38-9]
   ACGIH: 5000 ppm (TWA); 30000 ppm (STEL); (1983)
   OSHA: 5000 ppm (TWA), 9000 mg/m³ (TWA);

Helium [CAS No. 7440-59-7]
   ACGIH: Simple asphyxiant
   OSHA: No PEL established.

PEL: Permissible Exposure Limit
TLV: Threshold Limit Value
TWA: Time-Weighted Average
STEL: Short-Term Exposure Limit

Engineering Controls: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapour, gas, etc.) below recommended exposure limits.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Eye/Face Protection: Wear safety glasses. Use equipment for eye protection that meets the standards referenced by CSA Standard CAN/CSA-Z94.3-92 and OSHA regulations in 29 CFR

Skin and Body Protection: Wear protective clothing. Flame resistant clothing that meets the NFPA 2112 and CAN/CGSB 155.20 standards is recommended in areas where material is stored or handled.

Respiratory Protection: If engineering controls and ventilation are not sufficient to control exposure to below the allowable limits then an appropriate NIOSH/MSHA approved air-purifying respirator that meets the requirements of CSA Standard CAN/CSA-Z94.4-11, or self-contained breathing apparatus must be used. Supplied air breathing apparatus must be used when oxygen concentrations are low or if airborne concentrations exceed the limits of the air-purifying respirators.

General Hygiene Considerations: Handle according to established industrial hygiene and safety practices. Consult a competent industrial hygienist to determine hazard potential and/or the PPE manufacturers to ensure adequate protection.

SAFETY DATA SHEET

Solubilities: Negligible solubility in water.
Partition Coefficient: n-Octanol/Water: Not available.
Auto-ignition Temperature: 537 °C (998.6 °F)
Decomposition Temperature: Not available.
Viscosity: Not available.
Percent Volatile, wt. %: 100
VOC content, wt. %: Not available.
Density: Not available.
Coefficient of Water/Oil Distribution: Not available.

Section 10: STABILITY AND REACTIVITY

Reactivity: Contact with incompatible materials. Sources of ignition. Exposure to heat.

Chemical Stability: Stable under normal storage conditions.

Possibility of Hazardous Reactions: None known.

Conditions to Avoid: Contact with incompatible materials. Sources of ignition. Exposure to heat.

Incompatible Materials: Strong oxidizers.

Hazardous Decomposition Products: Not available.

Section 11: TOXICOLOGICAL INFORMATION

EFFECTS OF ACUTE EXPOSURE

Product Toxicity
Oral: Not available.
Dermal: Not available.
Inhalation: Not available.

Likely Routes of Exposure:  Eye contact. Skin contact. Inhalation.

Symptoms (including delayed and immediate effects)
Inhalation:  May displace oxygen and cause rapid suffocation. Central nervous system depression can occur if product is present in concentrations that will reduce the oxygen content of air below 18 % (vol). Symptoms may include headache, lightheadedness, drowsiness, disorientation, vomiting and seizures. Unconsciousness and death may occur with severe oxygen deprivation. May cause respiratory irritation. Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.
Eye:  Contact with rapidly expanding or liquefied gas may cause irritation and/or frostbite. The pain after contact with liquid can quickly subside. Permanent eye damage or blindness could result.
Skin:  Contact with rapidly expanding or liquefied gas may cause irritation and/or frostbite. Symptoms of frostbite include change in skin color to white or grayish-yellow. The pain after contact with liquid can quickly subside.
Ingestion:  Not a normal route of exposure.

Skin Sensitization:  Not available.
Respiratory Sensitization:  Not available.
Medical Conditions Aggravated By Exposure:  Not available.

EFFECTS OF CHRONIC EXPOSURE  (from short and long-term exposure)
Chronic Effects:  Prolonged exposure to Natural gas can lead to hypoxia, bluish colouration to the skin, numbness, damage to the nervous system, heart sensitization, reduced consciousness and death. Prolonged or repeated inhalation of Isopentane may cause dizziness, weakness, weight loss, anemia, nervousness, pains in the limbs and peripheral numbness.
Carcinogenicity:  This product does not contain any carcinogens or potential carcinogens as listed by ACGIH, IARC, OSHA, or NTP.
Mutagenicity:  Not available.
Reproductive Effects:  Not available.
Developmental Effects Teratogenicity:  Not available.
Embryotoxicity: Not available.

Toxicologically Synergistic Materials: Not available.
