

With over 65 years of experience, TC Energy is a leader in the responsible development and reliable operation of North American energy infrastructure including natural gas and liquids pipelines, power generation and natural gas storage facilities. Our predictable, low-risk, regulated cost-of-service businesses and long-term contracted energy infrastructure assets connect supply and demand in markets where we have a distinct competitive advantage.

Investor fact sheet

An unparalleled asset base

Natural Gas Pipelines

- One of North America's largest natural gas pipelines networks which extends more than 93,300 kilometres (57,900 miles)
- Our network taps into virtually every major supply basin and transports over 25 per cent of the continent's daily gas needs
- One of the largest natural gas storage operators with approximately 653 billion cubic feet of capacity

Liquids Pipelines

- Our Keystone Pipeline transports approximately one fifth of Western Canada's crude oil exports to the U.S. Midwest and Gulf Coast
- Since service began in 2010, the Keystone Pipeline System has safely transported over 2.9 billion barrels of crude oil

Power and Storage

- A portfolio of 7 facilities capable of generating 4,200 megawatts of electricity
- Approximately 75 per cent of that electricity capacity comes from emission-less nuclear energy
