**Project: Lateral Pipelines and Associated Facilities Decommissioning Program¹
(2022 Decommissioning Program)**

NOVA Gas Transmission Ltd. (NGTL), an affiliate of TC Energy Corporation (TC Energy), would like to take this opportunity to reach out to our stakeholders and rightsholders, and affirm our commitment to meaningful and timely communication with you.

- In January 2022, NGTL sent you notification of NGTL's proposal to permanently cease operations at 21 lateral pipelines and three associated meter stations (the Facilities) as these Facilities are no longer required to service customers.
- In April 2023, some of you may have received further updates on changes to the Facilities listed for decommissioning, with the addition of the NPS Ralston Lateral.
- NGTL wishes to advise that the NPS 4 and NPS 6 Stanmore South Laterals and Burnt Timber Sales Meter Station, have been removed from the Program.

As required by its regulator, the Canada Energy Regulator (CER), we are writing to advise you that the 2022 Decommissioning Program application was filed on August 22, 2023. The application can be found on the CER's Document Library at: <https://apps.cer-rec.gc.ca/REGDOCS/Item/View/4402182> (CER Filing ID: C25951).

NGTL will continue to provide you updates as the Program progresses throughout the regulatory and abandonment process. Decommissioning activities are anticipated to begin Q3 2024, pending regulatory approvals. You may also find any updated information on the Program's external website located at:

<https://www.tcenergy.com/operations/natural-gas/decommissioning-abandonment-programs/>

TC Energy is a leading North American energy infrastructure company with over 65 years of experience and has an industry leading safety record. We are committed to building and operating our natural gas system safely. From design and construction to operation and maintenance, safety is an integral part of everything we do.

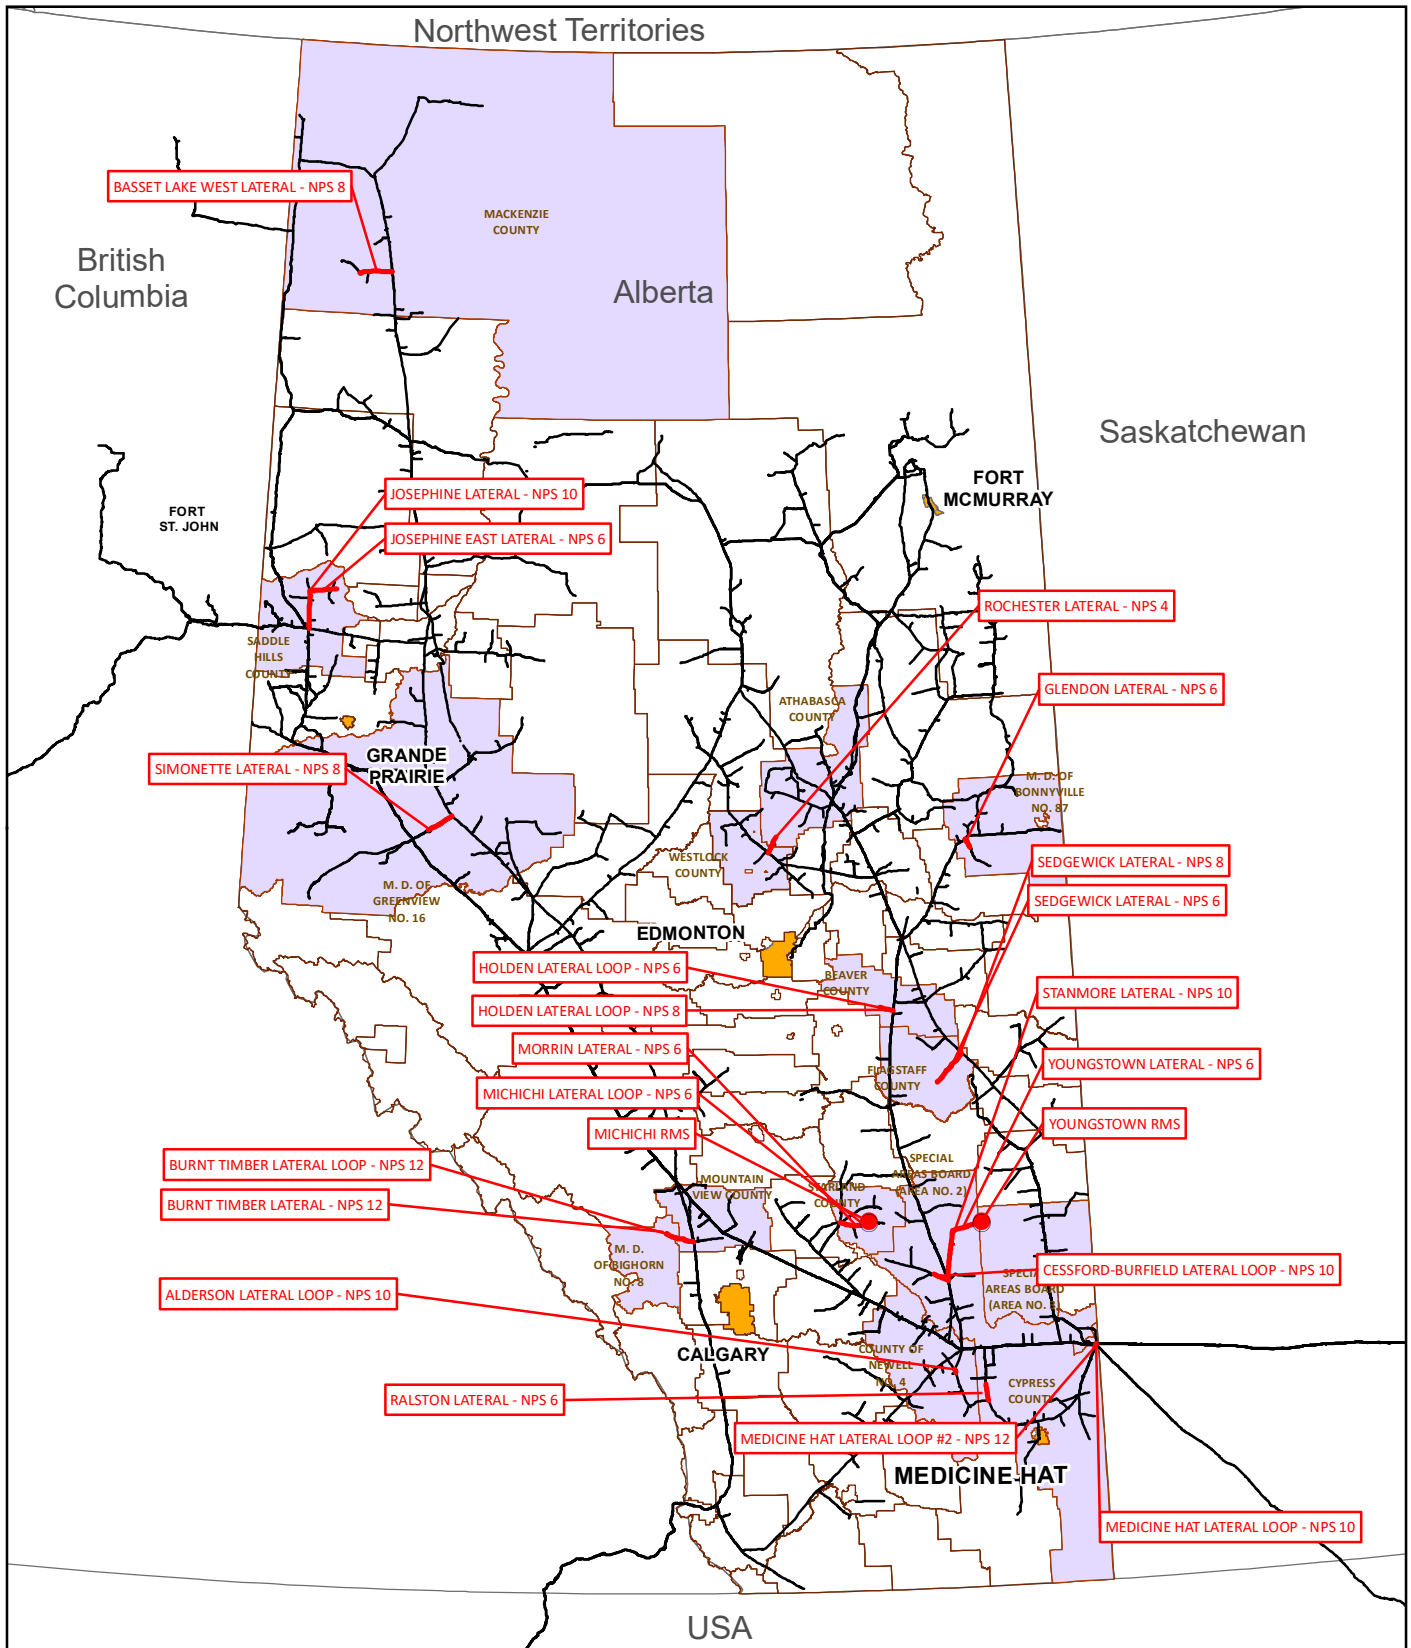

We strive to engage stakeholders early and often. We believe engagement is a two-way process and invite communities, landowners, Indigenous groups, and other interested stakeholders to share their questions and concerns with us so that we can provide information, follow up, and, where feasible, incorporate input into our plans. Please do not hesitate to contact our Community Relations department either by phone at 1-855-895-8754 or by email at public_affairs_ca@tcenergy.com.

Sincerely,

Ashley Anderson
Community Relations Advisor
