<sup>(1)</sup> Volume Incentive Rates are applicable to Shippers who executed TSAs for a 1- or 2-year term, pursuant to an open season held between April 8, 2022 and May 9, 2022. At no point will Volume Incentive Shipper rates be lower than the Floor Rate or higher than the Ceiling Rate associated with each applicable Volume Tier. The actual rate is based on the actual Calendar Month Average of MEH. The MEH information is available to all Shippers at the following website: <https://direct.argusmedia.com/price/pricedata#>. The actual rate will be filed with FERC no later than the first business day of the nomination month. For clarity, the Volume Incentive Rate will be calculated monthly as follows for each Committed Contract Volume Tier: Calendar month average of the MEH differential as posted on Argus minus the discount factor of forty cents (\$0.40); if calculation is less than the Floor Rate, shipper will pay the Floor Rate; if calculation exceeds the Floor Rate, shipper will pay the Floor Rate plus 50% of the positive difference of the MEH calculated price less the Floor Rate (not to exceed the Ceiling Rate).

<sup>(2)</sup> Volumes transported shall be subject to the temporary discounted rates in Table 1, in accordance with Term Shipper's Contract. The temporary discounted rates from the ceiling rate will be calculated based on the actual Calendar Month Average of MEH no later than [W] **January 1, 2023 and will be effective from January 1, 2024 to January 31, 2024. The ceiling rate will therefore be in effect on February 1, 2024. December 1, 2023 and will be effective from December 1, 2023 to December 31, 2023. The ceiling rate will therefore be in effect on January 1, 2024.**
