

Supplier Invoicing Instructions

TC Energy values our supplier relationships and we want to ensure we efficiently process valid payments as per our contractual arrangements. In order to ensure quality invoices are processed in a timely manner, we need our suppliers to ensure the required information is presented on submitted invoices. Below is a guide and reminder to help you submit quality invoices that can be processed.

IMPORTANT NOTE: As previously advised in 2021, with effect from January 2022, TC Energy will start REJECTING invoices that are missing required information as non-compliant invoices.

Invoice Requirements Invoices submitted **must** include the following information:

<ul style="list-style-type: none"> • Bill to the correct TC Energy legal entity the goods or services were provided to as listed on the PO • Include vendor remit to name and payment instructions • Clearly identify document as an “invoice” or “credit memo” (credits must reference the original invoice) • Ensure Invoice Data is recognizable characters • Invoice date and Unique invoice number • Description of goods and services provided • Amount due and currency • Purchase Order Number or Contract Release Number or Contract Number, that you are billing against. If you submit multiple invoice lines, ensure you reference the right PO for each line (if applicable) • Holdback/Retainage must be identified as a deduction • Include your written Company full legal name and address 	<ul style="list-style-type: none"> • Each invoice must be submitted in pdf format or it will not be processed. Invoice must be within the first 5 pages of the document (any supporting material appears after the invoice) • Submit one email per pdf invoice (non eCommerce) • Taxes as applicable subtotaled <ul style="list-style-type: none"> - State/Federal tax registration number (U.S.) - Itemized GST/HST, PST and/or QST (Canada) - Withholding Tax (CAN & MX) & VAT Tax (MX) - If GST/HST and/or QST are on the invoice, include the GST/HST and/or QST registration number • Full Location Address, including Province &/or Zip+4 • Goods: Ship to Location • Services: Location of Services Performed • Non-purchase order invoices must include the email address of your TC Energy contact in the body of the invoice

Vendor Invoice Management uses Optical Character Recognition (OCR) technology to scan and enter data which improves process time and accuracy but it needs some structure to work properly.

<ul style="list-style-type: none"> • Avoid adding special characters (#) before critical data points <ul style="list-style-type: none"> - DON'T Enter: Invoice #12345 DO Enter: Invoice# 12345 - DON'T Enter: PO#4500xxxxxx DO Enter: PO# 4500xxxxxx - DON'T Enter: Invoice Total \$5,625 DO Enter: Invoice Total \$ 5625 • DO NOT add “handwritten” data or highlight or darken fields (OCR can’t capture these areas) • DO NOT rely on a Company Logo or image to relay company name and address (OCR can’t read logo’s)

Submitting Your Invoice

If you have a contract that states your invoice is to be submitted to a specific business unit rather than to Accounts Payable directly, continue to send your invoice to the specific contact identified on your contract.

If you are a Freight vendor that works directly with the TC Energy Expediting & Logistics Team, continue to follow the current invoice process in place.

IMPORTANT NOTE: Invoices must only be submitted to Accounts Payable **once**.
